BOAT CREWS ARE NOW ON EDGE

Wisconsin Seniors Are Second Choice, But the Freshmen Are Favorites.

Poughkeepsie, N. Y., June 19.—But two days' longer practice, the crews of the universities of Cornell, Wisconsin, Pennsylvania, Columbia, Georgetown, and Syracuse are about ready for the big aquatic battle of Saturday afternoon. Local rowing experts are predicting a victory for Cornell in the varsity race, and Wisconsin in the freshman race.

It is not believed that the four-mile record will be broken. Last year when four crews broke the world's record and Cornell established a new record of 18:53 1-5, the water was so phenomenally advantageous that such conditions are not expected again.

Wisconsin Is Favored
Coach Andy O'Dea has a good senior crew and is likely to give Cornell one of the strongest battles the Ithacans have ever had in a six-cornered contest. The Columbia senior crew has met with so many misfortunes that it has almost become an unimportant factor, and the victory seems to rest between the three crews of Cornell, Pennsylvania and Wisconsin.

The conditions for practice today were especially fine, and all of the coaches had their oarsmen out. The Wisconsin men were out yesterday afternoon and given a short row. Tonight O'Dea allowed his crews to have a one-mile brush, and they demonstrated that they are capable of keeping the bow on an even keel, rowing in good form and getting out of the shells all the speed that there is in them.

Picks Penny Four-Oared Crew
Coach Ward spent the most of the morning experimenting with two four-oared crews and finally decided that Pennsylvania should be represented in the contest by Jackson at bow, Shoch at No. 2, Pepper at No. 3 and Lea at stroke.

Columbia took a three-mile time row tonight and covered the distance in 17:07. The freshmen were sent away for two miles and finished in a little less than eleven minutes.

Coach Courtney sent the Cornell seniors for a four-mile trial and with poor conditions the time was unofficially announced as 20:20, but it is believed that the time was at least a minute slower than this.

The coaches will give their crews no more time trials, it being their purpose merely to keep them in rowing condition until the day of the race.

OLD KING OF SAXONY DYING

The End Expected Any Moment—His Family Not Leaving His Bedside.

Berlin, June 19.—The King of Saxony is in a critical condition. Yesterday he was unconscious for nearly twenty-four hours. His family never left his bedside during the night. His death is expected at any moment.

Crosses Husband and Money.

St. Paul, Minn., June 19.—After less than two months of married life with her second husband, whom she believed to be a German count, Mrs. Otto Kern, formerly Mrs. Gustav Nagel, is minus her husband and \$3,000.

There is a convention of music teachers in session at Joliet, Ill.

ST. PAUL MAY HAVE STREET CAR STRIKE

Demands of Employees May Lead to Complete Tie-Up If Not Granted.

St. Paul, June 19.—A general strike of the street car men is threatened here. The men have demanded the reinstatement of a number of fellow workers who were discharged for agitating the organization of a union. If the demand is refused all the employees of the traction company will go out.

EXPRESSIONS ON METHODS USED BY THE THOROUGHBREDS, TUESDAY

Best Citizens of Janesville Condemn the Policy of Voting Democrats, and Many Favor Prosecutions—Rock and Porter Election Cases Are Discussed.

The following is from the Milwaukee Sentinel and sums up the opinions and sentiments of the leading Rock county citizens on the political situation in Rock county. It includes the opinions of lawyers, merchants and business men and clearly demonstrates that the actions of the La Follette faction in voting democrats is not approved and should be stopped.

Milwaukee Sentinel, June 19.—Janesville, Wis., June 18.—Rock county is today the hotbed of controversy and discussion over the doubtful methods that were used yesterday at the caucus by the followers of La Follette. From all the towns where the vote was at all close, or in which the La Follette element secured the delegates, representative citizens have come into the Republican Headquarters in Janesville with tales of the gross way in which the Governor's lieutenants openly forced the chairmen of the caucuses to allow Democrats to vote.

Complaints of the methods used by Attorney John Fisher of Janesville in the Town of Rock were brought into the city last night by voters from that town, and today the story becomes even more complete, and the way in which the chairman and inspector of the election were bulldozed into allowing twenty-five well-known Democratic votes to be counted, thus electing La Follette delegates has aroused the indignation of the Republicans of this section of the county.

The sentiment of the leading Republicans favors the throwing out of the town of Rock delegation, when the county convention is called, or of trying to determine which side would have had the delegation without the Democratic votes, and then seating that delegation.

Ogden H. Fethers, an old-time Republican of the county and one of Janesville's leading attorneys, said tonight:

"If the town of Rock allowed Democrats to vote at its caucus and their aid elected a delegation for the county convention such a delegation should not be allowed to have a vote in the county convention and should be either thrown out entirely or given to the delegation that would have had it had not the Democrats voted. It might be hard to discover just who would have been chosen, but it has been done in past days and can be done again."

Gross injustice to the Republicans
M. G. Jeffris is more decided than Mr. Fethers in his statement. He says:

"From what I have learned of the situation I should say that a gross injustice has been done the Republicans of the county in voting Democrats in the town of Rock. My opinion would be that the votes from this town should not be admitted to a vote in the convention. I also believe that the Democrats should be prosecuted and the Republicans who enticed them to vote should be punished as well."

James A. Fathers, city treasurer, and member of the county committee, said of the situation:

"The Democrats who voted with the Republicans at the Rock caucus are making the caucuses not Republican but Populist in nature and do not reflect the true sentiment of the Republicans of the county."

J. W. Goldin, who is managing the Whitehead campaign in Rock county, said of the situation:

"When it is necessary for Democrats to come into a Republican caucus at the dictation of a Republican factionalist it is time to cause an investigation and determine who is perpetrating the fraud on the legitimate Republican voters of the county. The action of the Democrats, who voted in the town of Rock will be investigated, and in my opinion their caucuses should be declared void and their delegates not allowed to vote in the convention. I myself would favor prosecuting the Democrats who voted, but am more in favor of punishing the instigator of their voting by a heavy fine, so as to make an example of this case as a warning to all future attempts to dominate the true sentiment of the party by the aid of Democratic votes."

Democrats Should Be Made to Suffer
County Committeeman A. H. Sheldon says that the vote should be thrown out and that an example should be made of the men who voted. He said:

"Of course, I understand it would be hard to determine just who the Democrats are who voted, but if this can be done they should be made to suffer. I am informed that the Democratic votes were received by the tellers in spite of the protest of Mr. Humphrey, the chairman, who insisted that they cannot be permitted to vote."

Favors Prompt Action
Chairman of the County Committee T. S. Nolan is in favor of thoroughly airing the matter and settling for once and for all the legality of Democratic voting in Republican caucuses. He said:

"Democrats should not be allowed to vote in Republican caucuses any more than Republicans should be allowed to vote in Democratic caucuses."

MILL RIOTERS AT PATERSON QUIET

Anarchistic Leaders Leave the City and the Mob Lacks a Head.

WORK IS RESUMED

Mayor Suspends Chief of Police for Inactivity, and Factories are Guarded.

AN EXCITED MEETING

Paterson, June 19.—The scene of Wednesday's bloody outbreak and riot among the silk dyers' helpers, in which nearly a score of people were shot or otherwise injured, is quiet this morning. Anarchist leaders, McQueen and Galleano, have disappeared and the strikers without a leader are not expected to make further hostile demonstrations.

Mills Working
All the mills resumed operations this morning, but were short handed. Fear of violence keeping many workers away. The mills are guarded by special deputies and police.

A clash between a body of strikers and police occurred about nine. Several broken heads have been reported.

Anarchistic Meeting
It is learned today that a meeting of anarchists was held last night and resolutions passed condemning the police, the government and the mayor. There were cries of "Kill this mayor and burn the mills."

Chief Suspended
The mayor suspended the chief of police, Craul, today. He said the chief lacked backbone.

Among the leaders yesterday was a man named McQueen and another named Galleano, the former an Englishman and the latter an Italian; formerly a companion of Bresci, who killed King Humbert. McQueen leaped into control of the meeting. He called for a vote on the question of calling for a general strike of all branches of the silk trade. All voted in favor, and a committee was appointed to consider means for bringing the silk workers out. Galleano was one of this committee. It gathered amid a babel of tongues and a scene of confusion. Five minutes later Galleano emerged from the group, shouting something in Italian.

Attack Silk Mill.
Instantly a mob had formed about him and swept down Belmont avenue, where an attack was made on the Columbia mill. Twenty young women on the first floor stood at bay and threatened to fight. At Bamford Bros. mill, in Cliff street, Patrolmen Robinson, Sweetman and Keys and Detective Magie had taken a stand. The mob rushed past them and entered the mill. Volleys of rocks were hurled at the officers, and all four men were badly hurt. A shot was fired and a bullet went through Robinson's right arm. A riot call had been sent in. When a patrol wagon loaded with police appeared an attack was made on it. Every policeman was hurt, and a rioter was shot in the neck. Mill after mill was then visited by the mob, the guards overpowered and beaten, property wrecked, and women operatives pushed out amid jeers and yells. At the Hall mill a single policeman was on guard. When the attack was made he fired. Lora Salvo, an Italian, fell shot through the lungs. Several policemen came running to the scene. More than 100 shots were exchanged.

Firemen Aid Police.
Firemen were called to the aid of the police. The shooting continued. Then the mob attacked the Gaede mill, in North Straight street. The structure was wrecked. Harry Harris, a reporter for the Call, was taking pictures of the scene when a bullet fired by a rioter struck him in the chest, mortally wounding him. By this time the mill was emptied of the operatives, and this practically ended the rioting of the day, after all of the mills had closed down. In the general hospital are four men, two of them fatally wounded.

FARMERS BUSY WITH TOBACCO

Stoppage in Rain Has Left the Ground in Excellent Condition for Planting.

Farmers all over the tobacco growing district of Southern Wisconsin are taking advantage of the lot-up in the daily rains and are busily engaged in transplanting their tobacco. The new crop is going out this season under the most favorable conditions. The plant beds have come forward in a satisfactory manner and have yielded an abundance of large healthy plants. In all parts of the country tobacco planters may be seen at work setting out the crop that has become a money-maker for the farmer.

Good Grounds

The numerous rains have put the ground in the finest condition for transplanting that it has been in years. And the few days of warm weather has dried up the rain so the fields could be put in shape for planting. The present indications are that there will be an early completion of the transplanting even though it extend over a month from start to finish. If the balance of the season is as favorable to the crop as the opening has been, the largest crop ever raised in Wisconsin will be shed this fall.

Shade Grown

Considerable attention is being paid to shade grown tobacco and a number of other growers besides Baines Snell and Heddles will try this scheme. The tobacco will certainly get protection from the extreme heat and hail by this means. Shade grown tobacco certainly has been a success in New England. It is admitted that the wrapping capacity of shade grown Connecticut is excellent. One cigar manufacturer in New York City said that he was anxious to test the shade grown leaf, as it was said that it was too thin to withstand much handling after it was rolled into a cigar. He purchased two bales of the tobacco and when the first one weighing 140 pounds was used up the yield was 102,000 cigars. It not only wrapped an immense number of cigars, but the color and quality was of the best. If Wisconsin shade grown tobacco is any where near as good as Connecticut it has a future before it.

Little Trading

There is very little trading going on in last season's crop and very little riding is being done by the buyers.

In the general leaf market at New York and other eastern points, old goods of every kind are moving freely but not in large quantities. They sell to supply needs from hand to mouth. Some of the larger holdings of Wisconsin are being broken up into smaller lots to accommodate the most urgent needs. And the high prices are being paid readily for smaller lots than for large unbroken packings. Pennsylvania and Onondaga B's have had quite a steady sale though other fancy fillers are apparently neglected. The Sumatra and Florida are supplying the domestic wrapper needs, the Florida enjoying quite a boom for export to Porto Rico, where the scarcity of the wrapper leaf is quite a drawback to the flourishing cigar industry on that island.

Ohio Lands

There is little desirable leaf in the hands of the farmers in Ohio and the few sales reported are at prices somewhat lower than have ruled earlier in the season, 7 and 8 cents being the figures the reported for the last purchases, with the prospect that these prices will rule for all remaining leaf. Transplanting is proceeding rapidly, in spite of the reported damage by frost and insects; and there is every indication that an increased area will be planted, in spite of the alleged scarcity of seedlings. It is pretty certain that the high price realized for their 1931 leaf will induce the farmers to plant freely and the seedlings will be obtained, even if they have to be bought for real money.

New York

In New York state the coming crop now engages all of the attention and transplanting is everywhere being accomplished as rapidly as possible. Those who set out their seedlings earlier have not much to show for their promptness, for the weather has been too cold for rapid growth, and the plants, though healthy, are small. About the same acreage as last year will be planted, those farmers who at first announced their intention to abandon tobacco growing having been induced to reconsider by the boom which occurred toward the end of the buying season.

Connecticut Valley

Those growers in the Connecticut valley who still hold their 1931 crop of tobacco are in no hurry to sell and will wait their own leaf, with the intention of getting the higher price which cured leaf demands. They also count considerably on a considerable shortage in good domestic tobacco, and they see no reason why they should not reap all of the profit possible from such a situation, even if they do run more or less of a risk from damage in the sweat. Transplanting is the order of the day, and it is now apparent that the acreage will be materially increased outside of the shade growing industry, which is now regarded as in a class by itself. Tobacco already planted has not fared very well, as the weather has been decidedly unfavorable. As the season is getting late, farmers are in a hurry to set out their seedlings, and the manufacturers of transplanting machines are experiencing a decided boom in their business.

RAYMOND'S CLEVER WORK

Last evening, at the Myers Grand, Raymond, the hypnotist, amused a good sized audience. He had a good number of subjects and his work with them was very clever. The sleeping lady awakened on the stage at about 8:30, and she came out of her sleep in excellent spirits. The rock breaking test was given two trials and at last the large stone was broken. The subject in this test was one of the men employed in putting up the cement post factory. Raymond closes his engagement here Saturday night and is entitled to crowded houses.

WATER COMPANY MAKES COMPLAINT

Fears Damage to Pipes by Electrolysis, and Protests Against Automatic Sprinklers.

Complaint has been entered by the Janesville Water company against the Janesville Electric street railway company, the water company claiming that their pipes are being injured by electrolysis induced by connection with the rails of the car tracks. It is asserted by the water company that in several instances the rails are bonded to the water pipes which thus act as conductors for the return current of electricity. If continued for a length of time this electric current will decompose the water pipes doing an immense amount of damage and the water company insists that the railway company should be compelled to take care of this current and not permit it to endanger their property.

Left To Committee

The matter is in the hands of the fire and water committee of the common council which is expected to take some decisive action. This committee met Tuesday for the purpose of hearing the complaints of the water company as presented by its president, W. G. Maxcy, of Oakshof. Mr. Maxcy stated the facts as he saw them very plainly. The subject of electrolysis is no new one and this is not the first time that there has been friction between the two corporations over it.

Against Sprinklers

Mr. Maxcy not only requested the common council to take some action for the protection of the water company's pipes against electrolysis but he also entered a protest against the placing of automatic sprinklers in places of business, free of cost so far as the water company is concerned. He thought that the company should receive some compensation for the inside fire protection thus provided irrespective of the amount of water used by the system. Mr. Maxcy stated further that the use of these automatic sprinklers makes it always a matter of uncertainty whether the company can furnish the required amount of pressure in case of fire. Should the automatic sprinklers on the same main be in use at the time of the fire the pressure would be greatly decreased. After hearing all of Mr. Maxcy's complaints the committee adjourned, deferring further investigation and action until some future meeting.

Testimonials

Case No. 2.—Last June I was called to treat a lady who was suffering from an acute attack of sciatica, and in three days she was well and able to walk without pain.

Stomach troubles.—Case No. 3.—A young man came to me for treatment in May, 1899. He had taken three treatments of Dr. Hildreth, St. Louis, and six of Dr. Sullivan at Chicago. I found the stomach greatly dilated, the digestive organs were inactive, bowels constipated, and severe pain in the stomach. He had a ravenous appetite at intervals, but food always aggravated the pain. The case for years had baffled all medical skill. The patient weighed 104 pounds. After five months' treatment I discharged him, weighing 158 pounds. His present weight is 170.

Case No. 4.—A prominent steel manufacturer, of Muncie, suffered for several months with constant pain in his right arm and shoulder. The pain was almost unbearable. His physicians advised him to go abroad. He came to me in December 1899. I found a lesion in the fifth and sixth cervical vertebrae, irritating the brachial plexus. Six weeks of osteopathic treatment left him without a pain and able to attend to business.—Chas. Sommer, D. O., Muncie, Ind.

FINE CONCERT BY CHILDREN'S CHOIR

Assisted by Miss Eaton of Chicago, the Young Vocalists Score a Brilliant Success.

It was a magnificent audience that assembled at the Congregational church last evening to enjoy the annual festival concert given by the children's choir of the church. When this same audience left the church after an hour and a half of exquisite melody it was with the feeling that the concert was by far the best ever given by the children's choir.

The large platform and the choir gallery where the children were seated was handsomely decorated with potted plants and cut flowers. There were over one hundred voices in the choir and the picture made by the happy faces of the children was in itself an inspiration and a delight.

Miss Rosa L. Eaton, of Chicago, was the assisting soloist of the evening and her artistic singing completely captivated the audience. Miss Eaton is considered the most promising young vocalist in Chicago. She was graduated from the Chicago Musical college on last Tuesday evening and her singing at the auditorium created quite a sensation in musical circles. She won and holds the four medals one for each year of her college course, having captured the diamond medal within the past week. She has a pure soprano voice of great brilliancy, rare quality and culture. She uses it with unconsciousness and ease which add greatly to the charm of her singing, her execution of intricate selections being faultless. Last evening she sang "Provençal Song" by Dell Acqua and "Kisses" by Bemberg and for encores she sang "Mighty Like a Rose" by Nevin and "Mother Dear" by Hjelmond, the selection displaying the operatic range of her voice most advantageously. She was presented with a large bouquet of roses.

A Wonderful Boy Vocalist

The other soloist of the evening was Chester Morse, who is a member of the children's choir. He sang Gaily Chant the Summer Birds, by De Munn, an exquisite selection, especially adapted to the rare beauty of his peculiarly sweet voice. Master Morse certainly has a marvelous soprano voice for a boy of his years and under the wise direction of Mrs. Jeffris he has learned to use it beautifully and artistically. Last evening he fairly outdid himself, singing with dauntlessness of expression and faultless melody. He was compelled to respond to an encore and he repeated a part of the same selection to the great delight of the audience. The accompaniment was especially beautiful, being played by Mrs. F. F. Lewis, organist; Mrs. J. L. Wilcox, pianist and Miss Mamie Hillbrandt, violinist.

Cunning Kindergartners

Twenty-five little tots sang a kindergarten song, "The House That Jack Built," at the same time marching around a miniature house which occupied the center of the platform. They were so very cunning and they sang so sweetly that the audience insisted on hearing them again and "Humpty Dumpty," another selection, was given.

Boys' and Girls' Chorus Sing

The balance of the program was given by the children's choir and they sang both classical and popular music charmingly. The boys' chorus sang "The Cossack's Song," a stirring Russian air with spirit, making one of the best numbers on the program. Fairbank's "April" was sung very prettily by the girls' chorus and another especially fine number was the duet "Shadowtown" by Frank Lynes, in which four soprano voices and four alto voices blended beautifully. The young ladies who sang were Vera Lynes, Mabel Giesler, Edna Bladon, Gertrude Crandall, Millie Crandall, Hattie Delisle, Ada Lewis and Agnes Griebel.

A Splendid Chorus

The entire choir sang six splendid choruses and a dainty duet "Fly, Little Dove," by Marzials, this number being one of the gems of the evening. "The Cossack's Song" by Schneek, "Barefoot Boy" by Clayton Jones, "Slumber Song" by C. E. Haworth, two eponymous songs by Lacy, "Nevah Min' Miss Lucy" and "My Rose" and "Japanese Love Song" by Clayton Thomas. This love song was the final number on the program and was delightfully catchy. The slumber song was also exquisitely rendered.

Praise Due Mrs. Jeffris

The accompaniments for all the number were played by Mrs. Lewis at the organ and Mrs. Wilcox at the piano and were a delightful addition to the singing. The choir is organized by Mrs. W. S. Jeffris its organizer and leader. To her untiring energy and rare ability as a director is due the success of the children's choir. She allows only the best music to be sung and she secures the very best results with the children's voices. The girls' choir presented her with some choice roses last evening and many friends lingered after the concert to congratulate her on the signal success achieved by her choir.

SEEKING A SITE FOR A FACTORY

Anti-Trust Glucose People Inspect Winthrop Harbor.

Waukegan, Ill., June 19.—Great interest is manifested in the probable site of the proposed anti-trust glucose factory, which is expected soon to locate either here or at South Chicago. J. H. Van Vliessen of Chicago took the factory men up to Winthrop Harbor, just north of here, where a free site is offered them. However, it is said the projectors do not favor that place, owing to lack of rail and water transportation.

PAPER BUSINESS IS BOOMING

Greater Activity Than Ever in This Branch of Industry—Much is Used.

(Special Milwaukee Correspondence.) Those who have made a study of trade conditions are agreed that the United States is in almost all respects the greatest paper making and greatest paper consuming country in the world. There are several hundred millions of dollars of capital invested in the making and distributing of paper, and the total value of all kinds of paper made annually in this country, by the time it reaches the consumer, is probably \$150,000,000, ranging all the way from \$20 to \$300 a ton. As paper in some of its various forms is an article of almost universal consumption the demand is practically unlimited. And at the same time there are not many lines of business in which keener competition exists.

As there is hardly a business on earth that does not require paper in some particular form, it readily follows that an active demand for paper of every description can certainly be construed as a sure indication of prosperity in almost every branch of trade. Our judgement therefore in selecting the well-known Standard Paper Company, 141 to 147 West Water St., Milwaukee, Wis., as a trade index can hardly be questioned, for it is a house of many years standing and is known as the largest of its kind in the state. Your correspondent is informed by the management of this company that the business is enjoying the greatest activity experienced for years, and that the outlook can be regarded as exceptionally favorable.

That the Standard Paper Company is enjoying its full share of business is well demonstrated by the busy scenes in and around its extensive and modern establishment, at the above address, which is filled to repletion with complete lines of light and heavy wrapping paper, paper bags, card boards, bristols, wedding papers, ball programmes, visiting cards, etc., with engraving as a specialty. The products of the leading and largest mills are represented in the stock and there is virtually nothing called for by the trade that cannot be supplied therefrom in the shortest possible notice.

The Standard Paper Company was established in 1880 and the constant aim of the management has been to study the demands of the trade and to cater to its every whim. How successful these efforts have been is shown by the immense business that has been built up throughout the territory contiguous to Milwaukee, and it constitutes a credit to the executive ability and high character of the individual officers, who are as follows: J. W. Butler, president; F. O. Butler, vice-president; Chas. L. Blanchard, treasurer; John Moss, secretary. Inasmuch as the operations of the company are very extensive and the relations established with the leading manufacturers are the most advantageous, it follows that the company is enabled to offer quotations on any goods in its line at the narrowest possible margin above the cost of manufacture and distribution.—Commercial Chronicle.

The Gazette has been a liberal patron of the Standard for a number of years, and regards the house as one of the best in the west.

Distress After Eating

Nausea between meals, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions.

Accept no substitute for Hood's. "I had dyspepsia twenty-five years and took different medicines but got no help until I began taking Hood's Sarsaparilla. Have taken four bottles of this medicine and can now eat almost anything, sleep well, have no cramps in my stomach, no burning and no distress." Mrs. WILLIAM G. BARNETT, 14 Olney

RICHARDSON SEES ERRORS IN POLICY

Scores Republicans for Failure to Redeem Ante-Election Promises.

CANNON MAKES SHARP RETORT

Says Democrats Have Been Fault Finders for Over a Generation and That They Will Be in the Same Rut After November.

Washington, June 19.—Mr. Richardson of Tennessee found opportunity to deliver a speech of an hour and a half, in which he arraigned the Republican party for various alleged misdeeds. Mr. Shallenberger of Nebraska also made a political speech, basing his complaint upon the dismissal of Miss Taylor, the War Department clerk, for her criticism of the Philippine policy and the justification of General Wood's expenditures in Cuba. To both speeches Mr. Cannon of Illinois replied in a jocular vein, creating much merriment among the listeners. Mr. Loud of California spoke briefly in opposition to an increase in salaries for various government employees.

Assails Republicans.

Mr. Richardson in his speech said the Republicans had been in power for six years. Upon assuming control of the government the dominant party did so with certain express promises and pledges, and he argued that its record was spotted all over with the leprosy of pledges unredempted. First, he directed attention to the promises of reasonable trade concessions to Cuba solemnly given, which had been defeated, he stated, by discord and rebellion in the Republican ranks. He then went back to 1896, charging that the Republicans had betrayed their pledges on the money question, and later, in 1900, when they appealed for a further lease of power in order to cure the alleged defect in the legislation for the perpetuation of the gold standard. "Not one line of remedial legislation had been placed upon the statute books since 1900. Mr. Richardson announced that in his opinion the gravest danger now threatening the welfare of the people and the country was the growth of the power of trusts.

Control of Trusts.

There was, he declared, an irrepressible cry throughout the country for government control of the great trusts. Congress alone could heed that cry. If it was not heeded these remorseless trusts could proceed in their greed to defy the power of the government itself. The Republicans, he said, seemed to be paralyzed with fear. Mr. Richardson declared that the Democrats were willing to remain in session until the snow flew in order to give the people some relief from tariff taxation. In conclusion Mr. Richardson charged the Republican party with improper, scandalous and reckless extravagance.

Simply Fault Finders.

Mr. Cannon, in reply to Messrs. Richardson and Shallenberger, said: "I listened with care for almost an hour and a half to the remarks of the gentleman from Tennessee, and after listening to him I am here to confess that on this side of the House, and I rather suspect on that side of the House, the millennium has not yet come. We are not perfect, and we do not claim to be. We pull the wagon

and we do the work, and you find the fault. You have been at that now for over a generation, and still we have pulled along.

"You had full power under Cleveland. You came in power partially from time to time, but then you had full power. It is recent—from 1893 to 1897. 'Don't you wish you could blot out the recollection of the manner in which you exercised it?'"

Calls It Gall.

"And for gall and cheek, with that recent performance, now when we are doing the best we can, meeting every obligation, the country perspiring, passed through the war with justice, solving the questions that grew out of that war and solving them with courage; notwithstanding the criticism and the opposition, gentlemen, of your party, still you scold. It is the way of the world. Go on; I do not think you can fool the people.

"My friend from Nebraska (Mr. Shallenberger), who has just talked, is young and hopeful. By and by, when, politically speaking, he has tarried at Jericho until his beard has grown, he will not be so optimistic.

Same Old Defeat.

"Now, in conclusion, let us move on. In a few days let us adjourn this Congress. We have nothing to apologize for. Peace and prosperity abound with us here and everywhere throughout our borders as never before in the history of civilization. Print your speeches, circulate them, go upon the stump. I will take my chance that when the silent ballot drops in November next you will march up to the same old defeat."

ALLOWS STATE CLAIMS

House Passes Bill to Reimburse Five States for War Expenses.

Washington, June 19.—After a stubborn fight, in which all parliamentary tactics except filibustering were resorted to by the opposition, the House agreed to the item in the general deficiency bill to reimburse the states of Illinois, Ohio, Michigan, Iowa and Indiana for expenses incurred during the civil war. Mr. Simms of Tennessee led the opposition. He proposed an amendment reducing the amount of the appropriation for Indiana to \$287,016.95. Mr. Underwood of Alabama joined him in the opposition, while Mr. Hemmingsway of Indiana and Mr. Cannon of Illinois spoke at length for the appropriations asked. The amendment was defeated so overwhelmingly that Mr. Simms abandoned the fight and made no effort to secure a reduction of the claims of the other states.

Needham Succeeds Whitman.

Washington, June 19.—Charles W. Needham has been elected president of the Columbia University, to succeed Rev. Dr. B. L. Whitman, who resigned two years ago. Dr. Needham for several years has been dean of the law school of the university and also of the school of comparative jurisprudence and diplomacy. Rev. Dr. S. H. Green, pastor of the Calvary Baptist church, has been acting president since Dr. Whitman's retirement.

Wood Is President's Guest.

Washington, June 19.—At the urgent request of President Roosevelt, Gen. Leonard Wood, formerly governor general of Cuba, has abandoned his apartments in the Everett, and taken up his residence at the White House, where he will live for several weeks, perhaps until he departs for Germany to witness the army maneuvers.

Clark Will Retire.

Washington, June 19.—Admiral Charles E. Clark, who has just been elevated to the grade of junior rear admiral, has indicated to his friends that he is considering the advisability of applying for voluntary retirement under the terms of the personnel act, as a senior rear admiral. His retired pay would be \$5,625 per annum.

Army Promotions.

Washington, June 19.—The President has sent to the Senate the following nominations for promotions in the ordnance department of the army: Lieutenant Colonel John R. McGinnis, colonel; Major John E. Greer, lieutenant colonel; Captain Frank Baker, major; First Lieutenant Clarence C. Williams, captain.

Canal Vote.

Washington, June 19.—To-day at 2 o'clock the voting on the amendments to the pending Nicaragua Canal bill will begin. The Senate devoted practically its entire session to consideration of the canal question.

La Grange, Ind., June 19.—The sixth annual reunion of the Rev. W. L. Meese National association was held in Noel's grove. Newton W. Gilbert of Fort Wayne, lieutenant governor of Indiana; Rev. A. S. Preston of Fort Wayne, Mrs. N. P. Barton of Hamilton and Charles Bekhart of Auburn were the speakers. The association is composed of hundreds of couples married by Rev. Mr. Meese, who is known as "the much marrying preacher." Of all his marriages it is claimed that none have ever resulted in divorce.

Mrs. Maybrick May Go Free.

Mobile, Ala., June 19.—Relatives of Mrs. Maybrick have received advices that she will be pardoned during coronation week. Mrs. Maybrick will be urged to return to her old home as soon as she is released from prison.

MITCHELL ISSUES CALL TO MINERS

Convention Is to Be Held at Indianapolis Beginning Thursday, July 17.

NATIONAL STRIKE THE THEME

Some 1,400 Delegates are Expected to Assemble and Take Action Toward Assailing Men Engaged in Industrial Struggle in Anthracite Field.

Total number union miners.....	363,433
Total number unorganized.....	77,236
Total daily wage.....	704,000
Total yearly wage (220 days).....	154,880,000
Coal mined annually (in tons).....	225,457,113
Value of coal mined.....	205,500,000
Investments in mines.....	2,557,500,000

Wilkesbarre, Pa., June 19.—Unable to make further progress in the anthracite strike, President Mitchell has issued the call for a national convention of union coal miners, which is to consider the advisability of ordering a national strike. If this is successful it will involve over 360,000 men, who now produce about 215,000,000 tons of coal each year. If the united mine workers can control its organization all the coal mining, east, south and north of Tennessee inclusive, except in the central Pennsylvania district, will be stopped and a suspension of work such as the world has never seen will ensue.

The call issued officially by Secretary-Treasurer W. B. Wilson "to the local unions of the United Mine Workers of America," under date of Indianapolis, the national headquarters, is as follows:

The Call.

"Districts Nos. 1, 7, 9, 17 and 24 have requested the national president to call a special convention, and you are hereby notified that a special convention of the United Mine Workers of America will be held in Indianapolis, Ind., commencing at 10 o'clock a. m. on Thursday, July 17, 1902, for the purpose of considering a proposition for a general suspension of work by the coal miners of the United States in support of the anthracite mine workers who are now on strike."

These five districts are the three anthracite districts, the West Virginia, and the Michigan, and the calls have been in the possession of President Mitchell for some time. After a discussion on the long distance telephone with Secretary-Treasurer Wilson at Indianapolis, President Mitchell announced the date of the convention.

Expect Strike Order.

The outlook is that the convention will have, according to President Mitchell, about 1,400 delegates present, and they will represent—although he does not say this—about 2,500 votes. Of this number the regions now on strike, the Pennsylvania anthracites, West Virginia, and Michigan, will represent about two-fifths. The others will come from the soft coal regions of Pennsylvania, Illinois, Ohio, Alabama, Indiana, Iowa, Kansas, Kentucky, Tennessee, and Missouri, where President Mitchell claims the organization is complete. The anthracite men expect to get from these states enough votes to pass the strike resolution, a majority, and not a two-thirds vote being required. According to the best figures now obtainable, the districts now on strike will have to gain over 250 votes to carry their object.

That Mitchell was forced to call the convention either by stress of conditions of the present strike or by the pressure brought upon him by the minor officials of the union is evident, and the fact that he allows a month for what could be done in two weeks is evidence that he is still hopeful of intervention before the time expires.

RATHBONE SAILS FROM CUBA

Released from Cuban Prison, He Departs for New York.

Havana, June 19.—H. G. Rathbone, former director of posts, who was released in consequence of the signing, June 9, of the bill granting general amnesty to all Americans in jail or awaiting trial in Cuba, sailed for New York on board the steamer Niagara. A number of prominent Cubans and Spaniards accompanied him to the steamer.

High Price for Cattle.

Kansas City, Mo., June 19.—The highest price for beef cattle in the city's history was paid for a car load of steers averaging 1,362 pounds—\$7.80 a hundredweight. Deducting shipping expenses the cattle netted \$104.47 a head.

Russian Military Plan.

St. Petersburg, June 19.—It has been decided to establish a large military settlement near Vladivostok as part of the general scheme of the Russian government to make its position in northeastern Asia impregnable.

Castellano's Corsets.

New York, June 19.—A pair of dainty lace-trimmed corsets—adorned to the Count de Castellano—were sold among the unclaimed goods at the appraiser's store. They were appraised at \$6.75, but brought only \$3.

Kodol Dyspepsia Cure

Digests what you Eat
In speaking of indigestion, Dr. Lewis says: "It is deplorable that so many hundreds of thousands of Americans suffer from indigestion. It means that the blood of the nation is becoming impure; for undigested food poisons the blood. Unless a method is devised for overcoming this malady, our race must deteriorate."
Many persons use soda tablets to neutralize fermenting food; this only makes a chemical receptacle out of the stomach, and injures its sensitive structures. Others feed on pepsin, which is better, but not sufficient, for it digests only albuminous foods. The preparation best fitted to relieve and absolutely cure indigestion is KODOL DYSPEPSIA CURE. It contains every known digestant and digests every kind of food. Its use is a common sense method of treating all stomach troubles, and the results are always certain.

Perfect Health

BY THE USE OF
Dr. Pierce's Favorite Prescription
Mrs. H. A. Alabrook, of Austin, Lonoke Co., Ark., writes: "After five months of great suffering with female weakness I write this for the benefit of other sufferers from the same affliction. I doctored with our family physician without any good result, so my husband urged me to try Dr. Pierce's medicine—which I did, with wonderful results. I am completely cured. I took four bottles of Dr. Pierce's Favorite Prescription, four of his 'Golden Medical Discovery' and two vials of his 'Pleasant Pellets.'"

A WEAK LAW.

The caucus law appears to be a snare and delusion. The framers of this much discussed measure doubtless believed that the average voter would be satisfied to take part in his own party caucus, and would have no disposition to interfere with the opposition.

It was not supposed that either party would ever have a governor who would countenance the tactics pursued in the present campaign.

This Governor LaFollette has done and his henchmen all over the state have devoted time, energy and money to democratic caucus support.

In the town of Rock 25 democrats were rushed in and voted in spite of protest, the chairman of the caucus being defied by an active young attorney, of the LaFollette persuasion.

It is a significant fact that in almost every town in the county where the governor gained a majority, it can be traced directly to democratic support.

This may be shrewd politics, but it is a disgrace to the republican party and is all the argument necessary for the defeat of the man who poses as a reformer.

If the law, lame as it is, had been as thoroughly understood in the county as it was in the city, the governor would have secured less than a dozen delegates. The democratic vote in the city fell off more than 100.

Caucus officers throughout the state should understand that where parties offering to vote are known to be democrats, that they have a perfect right to reject the ballot and there is no law that can compel them to receive it.

These officers are sworn to protect the ballot from fraud and when they fail to do it, they are remiss in duty.

The next legislature will give to the state a caucus law that will not be open to question or defiance. It may not be in accord with a reform administration, but that is immaterial. The people have been reformed to their hearts' content. When the republican party in attempting to conduct its own caucuses is defied by forces working under instruction of the administration, reform ceases to be a virtue and becomes a travesty.

The republicanism of that sort of work is open to question, and the most severe criticism.

Again assuring you of my respect and good will, I am, very truly yours,
W. J. BRYAN.

MR. BRYAN'S AMBITION

Hon. Wm. V. Allen, publisher of the Madison Nebraska Mail, recently wrote an editorial in which he urged Mr. Bryan to become the candidate of the Populist and Democrat parties for Governor. The "Mail" is a populist paper. Mr. Bryan declined the honor in the letter which follows. It is well worth reading, as it shows how closely Bryanism is allied to populism:

Hon. Wm. V. Allen, Madison, Neb.—My Dear Mr. Allen: I have just read the editorial which appeared in the last issue of your paper, The Madison Mail. While I have not thought it proper to take public notice of the suggestions that have occasionally been made in line with your editorial, your prominence in the populist party and your high standing among the democrats of Nebraska and the nation would seem to make some reply necessary, and I answer at once. I need not assure you that I appreciate the compliment which you pay me, as I do the friendship that you have shown toward me on former occasions.

Neither need I repeat my expressions of gratitude to the democrats and populists of the state for the support they have given me. After twelve years of service, four of which were spent in congress and eight in the advocacy of those reforms for which democrats and populists have contended, I take it for granted that political friends are convinced that my sole aim is to be useful in securing good government; but I am satisfied, and I believe you and other friends in the state will upon reflection agree with me, that I can best serve our people by continuing to discuss through the columns of my paper and upon the platform and stump, the principles which were enunciated at Chicago and reiterated and amplified at Kansas City.

Many can be found in the democratic and populist parties fully equipped for the discharge of the duties of governor—men who have and deserve to have the confidence of the reform forces to the fullest possible extent. Several have already been mentioned in the public press and others might be mentioned.

The moral courage, fidelity to principle and willingness to sacrifice for the right shown by these men entitle them to the unanimous and enthusiastic support of all who are opposed to republican policies. The selection of one of these to head the state ticket, ought to be undertaken with a feeling of friendliness toward all the candidates, for as between them it is only a matter of personal preference, not a matter of political importance.

It is not certain that I could poll more votes than any one of a dozen who might be named. Therefore, from the standpoint of votes, there is no good reason why I should give up what I believe to be a more im-

portant work for the task which you so generously suggest. I have no personal ambition to serve; there is no office to which I aspire. I am not only content to do the work which I am now doing, but I believe that in this way I can accomplish more for my state and for the United States as well as for my political associates, than I could accomplish as a candidate for governor whether my candidacy resulted in defeat or in success.

My candidacy is not necessary to defeat the re-organizers. While I expect to do all that is within my power to aid those who are determined to prevent the Clevelandizing of the Democratic party, yet the success of that effort does not depend upon me or upon any influence that I may be able to exert. It depends upon a multitude of earnest, honest and loyal democrats who, having seen the party once debauched by an abject surrender to plutocratic influences will spare no pains to protect the party from another such humiliation and disgrace.

I may add that I am looking forward with pleasure to an opportunity to return some of the favors that have been bestowed upon me. In five campaigns I have received the constant and unwavering support of the democrats of Nebraska. In the campaigns of '92 and '94 I was supported by many populists, and in 1896 and 1900 received the votes of all of the fusion populists. I am now in a position to make return and I am not willing to intercept a reward which is due to these friends. I am not willing to deprive only one of them of the honor that attends a gubernatorial nomination or election.

For these reasons I am not and cannot be a candidate and I beg you to make no further mention of my name in connection with this office. On the contrary, I hope you will hold yourself in readiness to throw your great influence to such democrat or populist as may in the opinion of the delegates give the best promise of uniting the fusion forces to recover the state from republican hands. While a large number of those who acted with us in 1896 were of republican antecedents, their ought to be no fear of their permanent return to the republican ranks so long as the corporate domination of that party not only continues, but becomes constantly more aggravated. The republicans of Nebraska are weakened by both national and state issues, and an aggressive fight by the reform forces ought to result in a sweeping victory.

I shall be at the service of that joint committee and shall devote such time to the campaign as they think necessary.

Again assuring you of my respect and good will, I am, very truly yours,
W. J. BRYAN.
Last issue "Commoner."

A populist chairman in Kansas, says that "Folks are so darned well-off that they don't realize what they're comin' to." That is indeed a sad thing for Kansas. A few years ago the state had a crop of mortgages that it couldn't handle, and now it has a wheat crop that it is unable to harvest.

The LaFollette forces had everything to lose and nothing to gain in Dane county. If the governor couldn't carry his own county, he might as well retire from the race. If he can get any glory over the majority and the way it was secured, he is welcomed to it.

The blind idolatry of hero worship was never more apparent, than in the support given the governor in the present campaign. These men live in the county and all of their interests are local, yet they deliberately ostracize themselves from the party in control. Foresight and common sense are good things to possess.

The Clinton Banner has long leaned toward prohibition. The paper is so pure that it can't support Senator Whitehead. Some people are so virtuous that they lean backwards. The position is unnatural. The Banner should straighten up and get in line.

If by any misfortune the governor is re-nominated, it will be by democratic votes. It is safe to say that not one of these democrats who support him at the caucuses, would vote for him in November.

Democrats in Edgerton and the town of Rock will have no occasion to attend any more caucuses this year. They have had their innings in supporting LaFollette and they are on record.

The Buffalo Exposition company is asking congress for \$10,000 to cover loss sustained by the assassination of President McKinley. That's an encroaching with a vengeance.

The Norwegians in Spring Valley seem to think more of LaFollette than Dahle.

PRESS COMMENT.

Racine Journal: Executive officials can hardly go to the length of deciding whether or not laws are practical when such are mandatory in their terms as has the governor in the legislative act regarding better methods of state bookkeeping.

Gillette Times: Do the people want to retire John C. Spooner, the statesman, merely to gratify the hate of Robert M. LaFollette and his political partner and financial backer, Isaac Stephenson? If they do desire so wicked and preposterous a thing, the easiest way to get it is to vote for La-

Follette delegates to the state convention.

LaCrosse Republican and Leader: The Democratic whisper going around seems to be: "Send for Grover."

Chippewa Herald: Now everybody rubber! The official organ of the state administration announces that the governor is above the law.

Oshkosh Northwestern: The automobilist who indulges in the senseless pastime of scorching is now referred to as an "autoidiot." And the name seems to fit the case very well.

Marquette Eagle: The eruption of the volcano Kilauea in Hawaii should be stopped. The island now belongs to the United States and disturbances are put down with a strong hand.

Kenosha News: A salary of \$25,000 a year for the president of Cuba will do for a start. That was the annual stipend of the president of the United States until our own republic was a good deal older and richer than Cuba.

Lake Geneva Herald: The Indiana Democrats declare that they are equally for Cleveland and Bryan. Before forming an opinion on that tandem, the public will wait to see it hitched up.

Racine Journal: The plan of Senator Whitehead for a state budget would do away with many of the present objectionable habits at the state capital as regards expenditures.

Marquette Eagle: The unanimity with which the counties are declaring against a continuation of LaFolletteism, is becoming almost monotonous. Tiresome the governor calls it.

BY SPECIAL REQUEST

The Interesting Natural Gas Exhibit will Remain a Few Days Longer.

So interesting and instructive has the exhibition of the Champion Oil Burner Co's new invention of heating with natural gas proved, that Mr. Densmore, the company's representative, decided to remain here a few days longer, until Saturday night at 10 o'clock, which will positively be the last opportunity to secure one of these burners at wholesale price.

This will leave but a few days more in which to inspect this wonderful, and at the same time simple contrivance for transforming ordinary kerosene or coal oil into practical fuel. The absolute safety, simplicity, and above all, cheapness, of the new invention, bids fair to revolutionize present methods of heating, and housekeepers will find it a convenience that they cannot dispense with. The exhibition will continue at the Grubb Block on West Milwaukee street, which will be the last of the wholesale exhibition in this city. The selling of the burners will then be left in the hands of a local agent.

JANESVILLE MAN LOSES HIS FOOT

IS THROWN FROM A TRAIN

Elsworth Allen, a brakeman on the St. Paul Road, is Run Over Near Monroe—Brought Home

Elsworth Allen, a young man residing at the corner of Madison and Jackson streets in this city, employed by the Chicago, Milwaukee & St. Paul road as a brakeman met with an accident this morning near Monroe, that cost him the loss of his right foot, besides injuring him badly about the body and head.

Allen has only been in the employ of the road for a short time, not over two weeks, and has worked in the yards as switchman and extra man on the way freight.

He left here this morning at 3:30 on a gravel train in charge of Conductor Newton Dunwiddie, bound for Mineral Point.

Train Pulled Out

When the gravel train left Monroe that Allen was riding on one of the gravel cars and he was not missed by the balance of the train crew until they arrived at Gratiot, four stations beyond Monroe. The gravel train being an extra, did not stop at any of these stations. When he was missed the conductor wired back to the stations the train had passed and round that Allen had been picked up by the regular freight in charge of Conductor G. W. Richardson, which was following them. They left him at Brownstown in care of a local physician.

Dr. Clementson, the company's physician at Mineral Point, was notified of the accident and left for Brownstown on the passenger train which arrives here at 10:25. He took charge of the injured man and fixed him up so that he could stand the ride to this city.

Brought Home

When the train arrived here Drs. J. B. Whiting and J. F. Pember were at the station to meet it. They had the injured man taken in the patrol wagon to the Palmer Memorial hospital where it was found that his right foot and ankle were crushed so as to make amputation necessary, and that he had a number of bad cuts on the right side of his head, one of them over the right eye being so bad that it allowed the flesh to drop down over the eye. He also had some bad cuts on his body.

How it Happened

The accident occurred about four miles beyond Monroe, where there is a sharp curve in the road where it runs through a rock cut. The train was running very fast at this point and as the car swung round the curve, the gravel on which Allen was standing shifted and threw him head first off the train. He struck on his head in the rocks alongside of the track, his right foot swung round onto the rail. The wheels of several cars passed over it, grinding the heel and ankle almost to a pulp. The cuts on his head and body were caused by his fall on the rocks and his being dragged by the cars as the wheels passed over his foot.

Signals For Aid

After the train had passed Allen came to his senses and drew himself away from the rails so he would not be hit by the train that was following them. He was in bad shape and could do little or nothing to help himself, but leaned up against the bank and waited for help.

After some little time the regular freight in charge of Conductor Richardson came in sight and Allen had strength enough left to signal the engineer, who brought the train to a stop. He was placed on the caboose and taken to Brownstown where he was given medical aid by the local physician.

It was a question at first with the officials of the road whether to take him to Monroe or to bring him here. They finally decided on account of his family, being here and the better accommodations at the hospital to bring him to Janesville.

Recently Moved Here

Allen formerly resided in Plattville, and came to Janesville a short time ago. He is a married man, his wife and two children living with him. His injuries, while severe, are not necessarily fatal and no doubt he will pull through all right with the loss of a foot.

BOXING MATCHES HAVE BEEN ADDED

Athletic Show at Myers Grand Next Week Will Undoubtedly Draw Large Crowd.

Aside from the wrestling match between the Terrible Turk and Reinhold Schott at the Myers Grand next Thursday evening the members of the Interurban Athletic association have arranged a warm boxing event. This event alone will undoubtedly draw out every sport who loves the fistie game.

SMALL BOY INJURED

Little Henry Meyer Was Run Over By A Stone Wagon

The 11-year old son of Henry Meyer who resides on Violet street was quite badly injured yesterday afternoon by being run over by one of Milwaukee's stone quarry wagons. The boy and some companions were riding on one of the wagons, returning to the quarries and while playing he fell off directly in front of one of the rear wheels, which passed over his head making a deep cut on the left side above the ear and a long cut on the right side. Dr. E. F. Woods was called and made the injured boy as comfortable as possible.

BALL TEAM ENTERTAINED

High School Boys Entertained By Rev. Denison

The members of the High school ball team, assembled last evening at the home of Rev. Robert C. Denison, where they were entertained by Rev. Denison and his wife.

The medal given by Mr. Denison for the best all round player in the club went to Walter Flaherty.

The members of the team met at Rev. Denison's home at 6:30 o'clock and enjoyed an excellent supper, which had been prepared for them by their host and hostess. After supper Mr. Denison addressed the team on the benefits of out door sports and especially on base ball. After the talk the medal was presented to Flaherty by Rev. Denison. Flaherty thanked the donor not only for himself, but for the other members of the team for the interest taken by him in its welfare.

Flaherty is the best all-round ball player ever developed by a high school team in this city. He is a first class pitcher, a fast fielder, a good batter and a good base runner.

Edward Palmer was a close second in the contest for the medal. He has made an excellent record this year and has played in almost every position on the team. He leads the batting by nearly fifty points.

Flaherty was elected captain of the team for the next year.

Tender-Hearted Bess.

She wouldn't beat the carpets. She wouldn't whip the cream. She wouldn't pound the bear stake. Too cruel it did seem.

She wouldn't strike the matches. She'd give hot tea no blows. She made no hit at baking.

She wouldn't wring the clothes. She wouldn't cut a chicken. Or think of drowning care.

She wouldn't mash potatoes. Or bang her golden hair. She wouldn't do all these things.

My tender-hearted Bess. And so she smashed all records. At downright laziness.

H. L. OLSON WEDS IRENE L. BENNETT

MARRIAGE OCCURRED TODAY

Rev. J. H. Tippet Performs the Ceremony, at the Home of the Bride's Parents.

One of the prettiest of home weddings took place this afternoon at the home of Mr. and Mrs. F. A. Bennett, 15 North Franklin street, when their daughter Miss Irene Louise Bennett was married to Lyle Howard Olson, of Milwaukee.

Only the relatives and very immediate friends of the family were present. The ceremony occurred at 2 o'clock.

The parlors of the home were handsomely decorated with potted palms, white roses, green foliage and white ribbon used effectively.

Under Lover's Knot

The bridal party stood against this background of rich green and white, the bride and groom being directly beneath a lover's knot of the white ribbon. The bride was attended by Miss Almee Louise Hicks, of Berlin, Wis., her close personal friend, and the groom's attendant was Edward Avery Wilbur, of Milwaukee.

The bride was especially lovely in an elegant gown of white silver shot mousseline de sole, daintily made with trimmings of silk applique. Her maid of honor was gown in blue organdie trimmed with Irish Point lace. The bride's bouquet was of white sweet peas and the maid of honor carried the same fragrant blossoms in pink.

The marriage ceremony was performed by Rev. J. H. Tippet, pastor of Court Street M. E. church and during the exchange of the nuptial vows the music of Mendelssohn's wedding march continued as a delightful accompaniment. The music was furnished by the Orpheus Mandolin orchestra. After the pronouncing of the nuptial blessing came a novel and pretty feature of the ceremony, when a large hook and eye of white flowers, which had hung separately on either side of the bride's party was united over the heads of the newly married couple by Miss Hicks and Mr. Wilbur. Beneath this significant symbol, Mr. and Mrs. Olson received the sincere congratulations of the guests.

Elaborate Luncheon

An elaborate three-course luncheon was then served the table decorations being white carnations, smilax and white ribbon. The place cards were pretty souvenirs of the occasion, each one bearing a cupid or similar appropriate design done in India ink. The luncheon was prettily served by Misses Anna DeForest and Gladys Heddles under the direction of Mrs. Louise Bowerman.

The bride is the eldest daughter of Mr. and Mrs. F. A. Bennett and has a wide circle of friends in this city which is her birthplace and has always been her home. She is a graduate of the Janesville high school of the class of '96 and of the Milwaukee Normal school and for the past three years she has been teaching in the public schools in this city and in Berlin.

During the past year she taught in the seventh grade of the Adams school and was one of the most popular teachers in the city. She possesses the charm of manner which will make her the gracious mistress over the home where she is to preside.

Will Live in Milwaukee

The groom is superintendent of the architectural department of the American Appraisal company and is a prosperous young business man. His personality is also very pleasing and he is a representative of one of the most prominent families in Berlin. He and his bride left this afternoon for Milwaukee where they will go at once to housekeeping in a prettily furnished flat at 134 Warren avenue. Their home will be beautified by many elegant wedding gifts.

The Guests

There were only about twenty-five guests at the wedding, the majority being from out of the city. Among them were Mr. and Mrs. H. H. Olson, of Berlin, parents of the groom, and their sons, Dr. C. M. Olson, of Waukegan, and F. S. Olson, of Milwaukee; Mrs. George C. Hicks, Miss Almee Hicks and Miss Maud Carter, of Berlin; Capt. and Mrs. J. L. Bennett and daughter, Miss Josephine Bennett, of Chicago; Judge and Mrs. O. H. Gilmore and son Robert of Woodstock, Ill., and Mr. and Mrs. W. H. Sleep and son Roy of Waukegan.

TAYLOR-MCFARLAND

This afternoon at three o'clock the marriage of Miss Ruby Taylor, of Delavan and William McFarland, of Richmond, was solemnized at the Delavan home of the bride's parents, Mr. and Mrs. Joseph Taylor.

The wedding party was a large one and several people from this city were among the guests. Both the bride and groom are popular young people who have a host of friends in this city as well as in their home towns. They will make their home in Richmond, the groom being a prosperous young farmer.

EXTRAORDINARY SUIT SALE

Broken Lots of Men's Suits to Go At \$7 For Choice

We are going to open tomorrow, Friday morning, one of the greatest bargain suit sales every inaugurated in Janesville. Broken lots of men's suits that have sold regularly at \$12, \$15, \$18 and \$20 and up to \$25—will be placed on sale at one price—\$7 for choice. The lot consists of worsteds and Cheviots of summer weights, this year's styles and patterns, together with everything left from last season; there is not a broken lot suit in the store not included, and there are sizes for everybody in the whole offering. Sales of this class are a rarity, we are not anxious to hold them over—the loss of money is too considerable, but there certainly is no profit in housing a lot of broken size stock, therefore we mean to dispose of it quickly. If there is any doubt as to the nature of the bargains, first deduct in your mind the difference between \$7 and any of the figures given above, then come to our store and look over the stock—there will be no question about the decision. The sale continues until the stock is disposed of, but our judgment is that it won't last long.

T. J. Ziegler.

To Elect Officers: The Ladies' Missionary society of the Congregational church will hold their annual meeting and election of officers in the church parlors this afternoon at three o'clock.

GOLFERS LEAVE FOR KENOSHA

THEY ALSO PLAY AT RACINE

The Local Team Start Tomorrow Morning To Play Two Matches.

A team of twelve or fifteen members of the Siniissippi Golf club will leave Friday morning for Kenosha where they will play a team match with the Kenosha club. On Saturday they will go to Racine where they will play a game with them in the afternoon. The team has no hope of winning at Kenosha as they are a hard club to beat who are in good shape to play a stiff game. The Janesville boys have barely got into shape yet this spring and are in no condition to put up a hard fight. The Racine club is not as strong as the one at Kenosha and the Siniissippi players should have some chance of winning. However, the boys will have a nice trip and a splendid outing. The Racine and Kenosha clubs are handsome entertainers and will do all that they can to make it pleasant for the Janesville team.

The players will leave at 8:20 over the Northwestern and will arrive in Kenosha about 11:30, which will give them a short time to run over the course, and become familiar with the lie of the ground. Most of the players have played over the Kenosha course so it will not be unfamiliar to them.

Some of those who will probably go and play on the team are: H. G. Carter, J. P. Baker, Albert Schaller, Colin C. MacLean, F. E. Field, Chas. E. Dunn, H. S. McGinn, S. D. Tallman, Wilson Lane, Leo Brownell, Mark Bostwick, H. McKinney, Charles Achterberg, George Baumann.

A Word About Linens.

MORE PAY GRANTED TO STEELWORKERS

Common Laborers and Some Skilled Employees Get 10 Per Cent Additional at Joliet Plant.

Joliet, Ill., June 19.—It has been announced unofficially that the Illinois Steel Company had advanced the wages of all common laborers and a part of the skilled laborers in the Joliet plant. The increase amounts to an average of about 10 per cent and dates from the 16th of this month. The increase was unexpected by the men, and did not come in response to any request from them. The officials of the company here refuse to give out any details as to the new wage scale.

Advance in Pittsburg.

Pittsburg, June 19.—Jones & Laughlin, iron and steel manufacturers, have voluntarily advanced the wages of all their employees except the tonnage men. The increase affects over 8,000 men and will average 10 per cent. Laborers who were paid \$1.35 will in the future receive \$1.50 per day.

The furnace employees of the Carnegie Steel Company have been advanced during the present week, and it is understood that all of the day laborers in the mills of the company will be treated in a similar manner to those employed by the Jones & Laughlins, limited.

The advances have been wholly on account of the general prosperous condition of the steel trade and the increased earning power of the plants.

DANDERINE Makes Hair Grow

PHOTOGRAPHED BY STEVENS, CHICAGO.

RUTH HARDY 91-3-41st AVE. CHICAGO.

CHICAGO, Jan. 30, 1902.
Knowlton Danderine Co., Chicago, Ill.—Dear Sirs: Two of my girl friends and myself have been using your Danderine for several months. We all commenced using it about the same time, and we are seeing which of us can grow the longest hair. For a month we used it once a day, after that twice to three times a week. All of our hair is much thicker than it was, and mine is fully seventeen inches longer. It seems the longer it gets the faster it grows. Are we using it to the very best advantage? Kindly answer at once.
Respectfully, Ruth Hardy

Nearly Every Lady in the City of Chicago Uses Danderine,

and if you will look at the wealth of luxuriant and beautiful hair exhibited in the above photograph you will see the reason for it. It is the only remedy ever discovered that will make hair grow and stop it from falling out (we back that statement with five thousand dollars). Chicago, St. Louis, Kansas City, New York and Boston dealers are now buying it by the car load in order to supply the tremendous demand, which its untold merit has created. Pretty substantial proof of its merit, is it not? Be sure you get the genuine, made only by the Knowlton Danderine Co., Chicago.

Now at all druggists in three sizes, 25c, 50c, and \$1.00 per bottle.

THIRTY-ONE PERSONS INJURED

Gasoline Explosion at Guthrie Blows Store Front into Crowd.

Guthrie, Ok., June 19.—Thirty-one persons were injured by the explosion of a gasoline generator in the New York Hardware Company's store. While firemen were fighting flames in the store an immense crowd gathered in the street in front. The fire ignited the gasoline, which exploded, blowing the front of the store into the crowd.

Found Dead in Bed.

New York, June 19.—Camille Lemoine, fifty-four years old, who had a machinery repair shop at 65 West Houston street, was found dead in bed. Lemoine was formerly a French soldier. He came to this country twenty years ago.

JUST A CRAZY HOBO.

The Story of Charles T. Condon's
Balloon Ascension.

It Made a Mental and Physical Wreck
of a Steady-Served Athlete and
Resulted in Other Terrible
Accidents.

When Charles T. Condon played the role of aeronaut for a wager, three years ago, his experience cost him his reason. To-day, says the Denver Post, Condon is a tramp—one of the variety known as "stew bums." He came into Denver the other morning on a freight train; left the same afternoon or evening on a brake beam, to where, no one knows. Condon was once highly respected and was one of the leading young men of Oakland, Cal., where he was in the commission business.

One Sunday, in a spirit of banter, he volunteered to make a balloon ascension in the stead of a man disabled, who was to have afforded entertainment for crowds at a public resort. Some of his comrades took him up, offering to wager that he would not dare go up on a trapeze, swinging beneath the great hot air bag.

When his friends saw that Condon was in earnest, they begged him to desist, but this the spirit of bravado would not allow. Before the park manager realized he was sending an utterly inexperienced man up in the balloon, the guy ropes were cut loose and Condon with a running bound sat on the trapeze and was a hundred feet in the air.

A number of boys and men had held the balloon captive by the guy ropes in readiness for its flight. All but one let go as the balloon was released. On one of the ropes, either holding on or being caught in a tangle, was a lad utterly powerless to help himself and afraid to drop.

Up went the balloon. The people shouted from below, beckoned fran-

CONDON SAW THE LAD.

tically to Condon to bring the big bag back to earth, fearful for the life of the dangling lad. All unconscious of the boy's presence, Condon continued evolutions on the trapeze. The balloon had ascended over a thousand feet before Condon caught a glimpse of the lad, clinging for life to the frail rope and utterly without support other than his own strength. Then realizing that the cutting loose of the parachute would mean death to the lad, he schemed to get him on the trapeze beside him.

"The boy was swinging from a rope on the other side of the balloon as the wind swayed it, and Condon found it impossible to reach him. The only hope was to make the lad hold on until the hot air bag became sufficiently cooled to descend. Condon cried to the lad; begged him to hold tight; cursed, pleaded, threatened, knowing it was useless. At an elevation of nearly 2,000 feet the youngster's strength gave way and he dropped. The fall was witnessed by the thousands in the park.

"The little body fell on the doorstep of a house less than a mile from the park. On the doorstep was an invalid mother and her married daughter, who had watched the flight of the balloon. The mother died shortly after from heart failure and the daughter was sent to a hospital, insane. There, her child was born, a few weeks later. On seeing the lad fall, Condon pulled the cord which cut the parachute loose. He came down safely, but was picked up unconscious as a result of his flight.

When he recovered, weeks after, he was not right mentally. His business went to ruin, and he took to drink. He disappeared within a year and friends failed to find him. It was learned that he tried to enlist for the Cuban war, but was refused. What he had done in the meantime or how he has lived is best explained by his appearance as he reached Denver.

Stoop-shouldered, unkempt, with a beard covering his face, he stumbled to the Union hotel. The porter put him out, and he sought a resting place in a nearby saloon, where he promptly went to sleep in a chair. "Where have I been?" he queried, with the unmistakable leer of a mind mentally unbalanced. "Why, I've been everywhere. I'm a bum, just a common bum. I went up in a balloon once and it was my finish. I'd go up again if there were no kids hanging to it and I could drop out.

"Tell you about it? No, that's dead; so's the kid. Awful thing it was. My first time up and my last till I go up to die myself."
